REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claim 20 is allowed.

Claim 20 is allowed because the prior art of record fails to disclose or suggest the inclusion of a detecting circuit for receiving *a second timing signal asynchronous to the first timing signal*. The inclusion of this limitation defines patentability over the prior art of record because the Kocis' circuit needs a synchronous timing signal to the detector circuit so that the circuit can do the calibration, i.e., there is no reason to replace the calibration clock to the detecting circuit of Kocis by a second timing signal asynchronous to the first timing signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
